

School Year 2019-2020

Dear Parent of a Middle School Student:

The Rockdale County Public Schools strive to provide our students with experiences that will prepare them to function effectively as students and citizens. We perceive this as an obligation to the students, their parents, and the community.

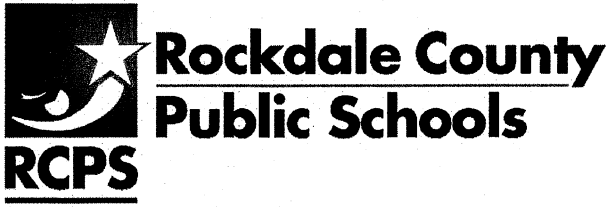

The growth and development of young people are important and it is essential to give careful consideration in providing meaningful experiences for them. In our curriculum, all pertinent concepts are presented in a logical, sequential manner beginning in kindergarten. As of August 2018, Senate Bill 401, requires students enrolled in grades K-9 to annually receive age appropriate sexual abuse and assault awareness and prevention education. Kindergartners are taught that creatures of the same kind produce others of the same kind, middle school students are introduced to the correct anatomical terminology while identifying the physical and emotional differences between males and females, and high school students receive training that will prepare them for parenting.

What follows is a summary of the objectives to be addressed in the middle school growth and development unit of the Health Curriculum.

1. Through an introduction of correct terminology, students will be able to ask questions and discuss sexuality accurately.
2. Through group activities, students will be able to identify the physical and emotional changes that occur during adolescence.
3. Through discussions and digital video discs, students will identify differences between males and females.
4. Through discussions and digital video discs, students will learn behaviors appropriate for interacting with persons of the opposite sex.
5. Students will understand some of the problems related to pre-marital sexual activity and how to effectively avoid them.
6. Students will explore how sex is used by the media to sell products.
7. Students will study about the transmission of HIV, the effects of AIDS, and cause/effects of STDs.
8. Students will learn the positive consequences of choosing abstinence.

A parent training component and video explaining the instructional materials are available at your child's school. You may review the materials used in the unit before your son or daughter receives instruction by contacting your child's teacher or counselor. Information is also available online at www.choosingthebest.org; our sixth graders use *Choosing the Best Way* curriculum, our seventh graders use *Choosing the Best Path* curriculum, and our eighth graders use *Choosing the Best Life* curriculum. Additional information regarding Senate Bill 401 is also available at: <http://www.legis.ga.gov/Legislation/en-US/display/20172018/SB/401>. The above curricula are aligned with the Georgia Performance Standards, which can be viewed at <https://www.georgiastandards.org/Standards/Pages/BrowseStandards/HealthEd.aspx>

All staff members presenting the information have received proper training through the Choosing The Best organization. More Than Conquerors, Inc. (<http://www.mtciga.com/>) is also a valuable resource to our school system as they provide certified abstinence educators upon request. Please be assured the information is presented in a prudent and tasteful fashion. Students will have the opportunity to complete a course evaluation on the unit and materials used. For details about our school system's human sexuality program, contact Denise Richardson in Curriculum Services at 770-860-4271.

I encourage your support in meeting the needs of all our students. For your own child, I ask that you provide your consent for his/her participation in the growth and development unit. Please indicate your preference for your child's participation in this class on the form below, sign the form, and return it to your child's teacher. If you choose not to consent to participation, please contact your child's teacher to develop an alternate plan of instruction that he/she can receive at school or home.

Thank you for your interest in your child's education and your support of the Rockdale County Public Schools.

Sincerely,

Dr. Terry O. Oatts
Superintendent
